RG7 8NN, United Kingdom

Dear _____,

Thank you for everything that you are doing for students and developing progressive education initiatives. I address you as an Expert in education innovations.

I am Founder and CEO of Edu Future Corporation. We develop innovative Case-lessons based on the unique 7W® methodology. We help teachers, students, parents, and lifelong learners in the interdisciplinary study of objects, phenomena and concepts in a combination of fundamental knowledge and practical applications in the real world.

For this purpose, we created the biggest collection of Case-courses in the world (500 items) for different ages, themes and languages. They are packed in super modern suitable online format, and much better than ordinary school lessons. The students enjoy it and get wonderful results. They accept knowledge deeper, faster and memorize for longer. It changes schools dramatically and became the most fashionable educational tool now.

Especially it is important for the university students, because they obliged to prepare innovative case-courses and interactive lessons for the pupils of the secondary schools, to teach them according to the 21-st century Education Standards. Moreover, they can fulfill diploma, term papers and scientific researches.

With our Edu Future 7W® Education platform (5 million unique visitors monthly, worldwide) <http://edufuture.biz/landing/>, we took part in such international contests, as XQ (USA, organized by Laurene Jobs, Apple, 2016), HundrED (Finland), and The Yidan Prize (Hong Kong, 2017), with a mission to create a better world through education, and we got the special recognition of our advanced learning materials – Case-courses "7W".

Now we apply to the new International Contest and ask for your expert support or advice. We would really appreciate to have an independent short feedback or review from you – as an international education expert, who can assess the 7W® case-lessons objectively and professionally.

Would you be so kind to look through an example of 7W® case-lesson and give a short feedback on the product! Case-lesson «Smartphone»
